Kurunegala, Sri Lanka

EDUCATION

B.Sc. (Honours) in Statistics (reading)  University of Sri Jayewardenepura Department of Statistics	<i>May 2023 - Present</i>
Diploma in Human Resource Management and Administration  Science and Information Technology City Campus	<i>Jan 2023 - Jan 2024</i>
Intermediate in Applied Banking and Finance  The Institute of Bankers of Sri Lanka	<i>Mar 2023 - Present</i>
Diploma in Computer Application  Sarvodaya Fusion	<i>Sep 2017 - Sep 2018</i>
Certificate Level II of the Aquinas Diploma in English  Joseph Vaz Institute	<i>Mar 2022 - Dec 2022</i>
G.C.E. Ordinary Level & G.C.E. Advanced Level  Maliyadeva Balika Vidyalaya	<i>Jan 2007 - Nov 2022</i>

SKILLS

Programming	R, Python
Packages	numpy, pandas, scikit-learn, matplotlib, seaborn, plotly
Software & Tools	Minitab, SPSS, EViews, Maple, MATLAB, Microsoft Office, L ^A T _E X
Data Visualization Tools	Power BI, Flexdashboard (R), Quarto dashboard
Coursework	Data Mining, Stochastic Processes, Bayesian Statistics, Generalized Linear Models, Time Series Analysis, Data Visualization, Regression Analysis, Statistical Inference, Probability Theory, Linear Algebra Calculus, Multivariate Statistics, Differential Equations, Sampling Theory, Intermediate Microeconomics, Intermediate Macroeconomics

WORK EXPERIENCE

Statistical Consultant  <i>Statistical Consulting Service</i> <i>Department of Statistics, University of Sri Jayewardenepura</i>	<i>May 2026 - present</i>
· Provided statistical consultation for the research project, “Opportunities, Challenges, and Constraints Associated with Bivalve Aquaculture Development in Northern Sri Lanka: Socio-economic and Environmental Aspects”, including data management, statistical analysis, and interpretation of results. · Conducted statistical analysis of GPS collar tracking data for an elephant movement study in collaboration with the Department of Wildlife Conservation through spatial and temporal data analysis.	

- Assisted researchers in selecting appropriate statistical methods, data visualization, and interpretation of findings for research publications.

Intern

Apr 2022 - Oct 2022

Bank of Ceylon

- Facilitated opening, maintenance, and closure of savings accounts and fixed deposits
- Managed customer account services including passbook updates and issuance of banking documents
- Assisted in delivering digital banking solutions and customer support for online services
- Delivered efficient front-line customer service in a high-volume banking environment

PROJECTS

Ditwah Land Slides Data Visualization Dashboard and R Package Development (Ditwah Data Hub Project)

Nov 2025 - Dec 2025

- Transformed unstructured PDF data into clean datasets for analysis
- Developed an interactive data visualization dashboard
- Contributed to R package development for reproducible analysis
- Applied R programming and data wrangling in real world tasks

Project available at: <https://thiyanagt.github.io/DitwahDataHub/>

Forecasting Commodity Net Export Price Index (CNEPI) Using ARIMA Models

Jun 2025 - Sep 2025

- Developed an ARIMA model to forecast the Commodity Net Export Price Index (CNEPI)
- Conducted data preprocessing and stationarity testing (ACF/PACF)
- Evaluated model performance using forecasting accuracy measures
- Analyzed net export dynamics for economic interpretation

Project available at: <https://github.com/amalirajaksha/CNEPI>

Sri Lanka Dengue Dashboard: A Web-Based Decision Support Tool for Dengue Surveillance in Sri Lanka

Jun 2026 - Present

- Developed an interactive dashboard using **Quarto** to monitor and visualize the dengue situation in Sri Lanka.
- Integrated historical dengue data from the [denguedatahub](#) R package with current weekly surveillance data from the Epidemiology Unit and the National Dengue Control Unit, Sri Lanka, to provide up-to-date dengue situation analyses.
- Performed spatio-temporal analyses, including district-wise trends, seasonal patterns, climate-dengue relationship analysis, and global comparisons using interactive visualizations.
- Implemented statistical techniques such as Detrended Cross-Correlation Analysis (DCCA) to investigate lagged associations between climatic variables and dengue incidence.

Project available at: https://github.com/amalirajaksha/denguedashboard_SriLanka

DS Job Tracker Survey

Nov 2025 - Dec 2025

- As a group Collected and documented data related job advertisements (2024–2025) based on the previous [DSjobtracker](#) package
- Developed the [Job_Ad_Data_Collector](#) app to facilitate easy collection of job advertisement data

- This survey aimed to investigate current employment opportunities in data related fields.
- Integrated datasets collected by different groups and performed data cleaning

Project available at: https://github.com/amalirajapaksha/DSjobtracker_survey

Interactive Demographic and Health Data Dashboard for Australia using R Shiny

Nov 2025 - Feb 2026

- Developed an interactive R Shiny dashboard for exploring and visualizing demographic and health related data for Australia, enabling user-friendly analysis of key population and health indicators.
- Implemented dynamic visualizations and filtering tools to support data-driven insights and exploratory data analysis.

Project available at: <https://github.com/amalirajapaksha/health-data-dashboard>

CERTIFICATIONS

SQL for Beginners

Jun 2026

Alison

- Credential ID: 5560-58949176

Analyzing Data with Power BI

Feb 2026

Analytics Vidhya

- Credential ID: 460qcjgohe

Intro to AI

Nov 2025

365 Data Science

- Credential ID: CC-458936358D

VOLUNTEERING

Organizing Committee Member

Jun 2025

Quora 3.0 - Statistics Society, Department of Statistics, University of Sri Jayewardenepura

- Helped organize [Quora 3.0](#), an annual quiz competition for first-year students.
- Worked with team members to manage event activities and support participant engagement.

REFEREES

Prof. Sarath Banneheka

Professor in Statistics
